

STRANGELY ENOUGH, SOME STUDENTS COME IN HERE TO PUT CRAP INTO THEIR BODIES.

Vapes can contain some of the same
cancer-causing chemicals found in cigarettes.

THE STALLS MAY HAVE #1 AND #2, BUT VAPES MAY HAVE #24, #28, AND #82.*

*Vapers can inhale toxic metals into their lungs – like these from the periodic table:
chromium, nickel, and lead.

SOME OF THE GROSSEST THINGS IN THIS BATHROOM ARE IN THAT VAPE.

Vaping can expose your lungs to acrolein,
which can cause irreversible damage.

IT'S A LOT EASIER TO WIPE YOUR BUTT THAN YOUR LUNGS.

Vaping can expose your lungs to acrolein,
which can cause irreversible damage.
